4. Click "Send."

5. Select the tickets to send, then click "Send Ticket"

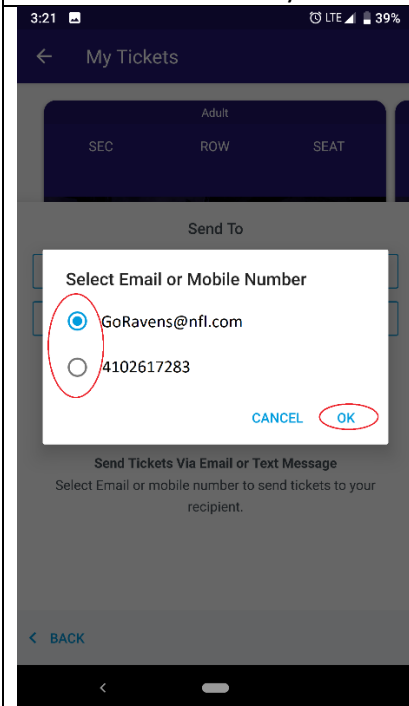

6. You can choose either: "Select from Contacts" or "Manually Enter a Recipient."

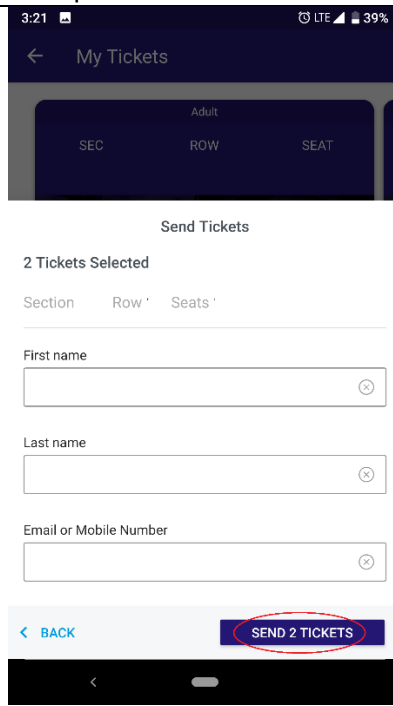

How To Send Tickets

7. If you tap “Select from Contacts,” your phone will open your contacts. After tapping on the contact, you will see the option to select their email or phone number, based on what you have saved in your contacts.

8. After selecting the contact information, you will see the information populated on the screen. If you had selected to manually enter the contact information, you will be taken to this screen and can tap each box to enter the appropriate information. Tap “Send Tickets.”

9. If you selected to email the tickets, you have completed the transfer after clicking send. If you selected to text the tickets, your phone will open up your messaging app with a link for the recipient to claim tickets. **You must send the link to the recipient.**
